

## CORRECTIVE ACTIONS MANAGEMENT PLATFORM

# ENSURE FOOD SAFETY WITH PROACTIVE PEST RISK MANAGEMENT

Experience the digital platform that writes the story for you.

From tracking down facts to compiling data and formatting spreadsheets, preparing for an audit and creating a clear, accurate record of your pest prevention and corrective actions is challenging and time-consuming.

With the **Ecolab Corrective Actions Management Platform** you can be confident that all your efforts have been clearly documented, saving you time preparing for audits.

### ALWAYS AUDIT READY

Recorded in a format that is audit-friendly, the online tool is up-to-date with your pest-related corrective actions and resolutions. Enjoy easy access to reliable data that helps you demonstrate audit and regulatory compliance.

### CLOSE THE LOOP

The platform helps identify and prioritize needed corrective actions and tracks progress toward resolving and preventing identified risks.

### PROACTIVE AND PROTECTED

Unbeatable data integrity provides visibility into key structural and sanitation opportunities allowing you to focus on proactive strategies to reduce pest risk.

SAVES TIME

Storing & Validating Your Activities in **One Dynamic, Accessible Place:**

- TRACKS activities and resolution status
- STORES data – sort, search and download
- CREATES unmodifiable time and user stamps
- MEASURES performance against KPIs

WE ARE COMMITTED TO A HIGHER STANDARD

## INTERACTIVE, PEST PREVENTION ONLINE TOOL

The Corrective Actions Management Platform provides one source of truth, allowing quick visibility into plant operations and food safety objectives across all locations through an easy-to-use interface.

### Two-Way Communication

Each corrective action has a record page that details the status history and comments from your team and your service specialist, making each record audit-ready at any time.

### Easy-to-Use

The list view allows you to search and sort corrective actions to prioritize work to be done at your facility.
